Student feedback mechanism on institutional governance/faculty performance	At the end of each semester, the faculty performance is assessed from students. Suitable corrective measures are taken to address specific issues of academic incompetence.			
Grievance redressal mechanism for faculty, staff and students	Staff Advisory System: Immediately after admission to the College, each student is assigned to a staff member, the Staff Advisor, who keep record of his/her personal and academic details and guide the student during his/her course in the college. The Staff Advisor is expected to give advice and guidance to the students in all curricular and extracurricular matters. The students are allowed freedom to express their grievances and the staff advisor initiates suitable steps to solve it to the extent possible. Within each semester class wise PTA meetings are being held to have more fruitful interaction between parents and teachers to discuss about the progress and problems of each student, and to devise possible remedial measures to improve the academic performance.
